

Creature #1

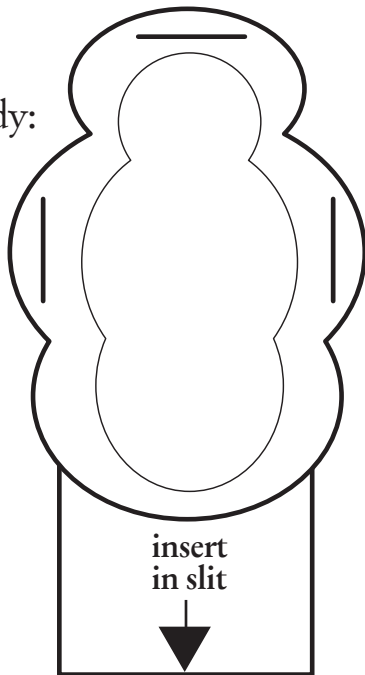

How this works:

- 1) All the creatures fit **interchangeably**. That means you can switch arms, heads, and bodies to make new creatures.
- 2) Color them in any way you want!
- 3) Think up fun stories for your creatures. Where did they come from? Do they have friends? Every good story has a problem. What problem do these creatures have to solve? Can you tell things about their home? Is it different from your home?

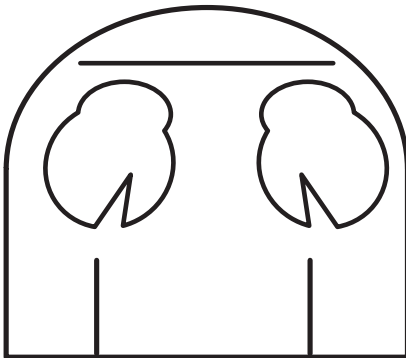

Head:

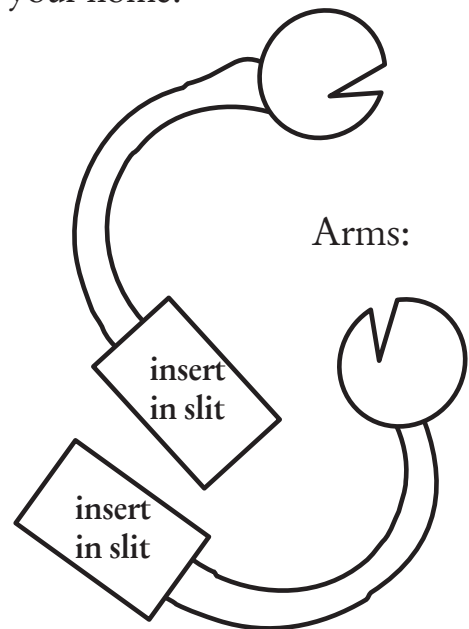

Body:

Feet:

Arms:

 cut on solid lines —————
 fold on dashed lines.
